

**Coalescing Oil & Polishing (COP) Questionnaire**

**Type of Reactor:**     Batch                      Volume: \_\_\_\_\_ m<sup>3</sup>  
                                   Continuous

**System:**             Open  
                                   Closed            Inline pressure: \_\_\_\_\_

**Oil Concentration:**            Min \_\_\_\_\_            Max \_\_\_\_\_            Avg \_\_\_\_\_

**Oil Concentration (dissolved oils ≤ 0.5 microns):** \_\_\_\_\_

**Type of Oil(s):** \_\_\_\_\_            Density: \_\_\_\_\_            Viscosity: \_\_\_\_\_  
                                  \_\_\_\_\_            Density: \_\_\_\_\_            Viscosity: \_\_\_\_\_  
                                  \_\_\_\_\_            Density: \_\_\_\_\_            Viscosity: \_\_\_\_\_

**Allowable Pressure Drop:** \_\_\_\_\_

**Type of Solids:** \_\_\_\_\_

**Concentration:** \_\_\_\_\_

**Particle Size (max-nominal):** \_\_\_\_\_

	Type	Concentration	Composition
<b>Emulsifier:</b>	_____	_____	_____
<b>Corrosion Inhibitor:</b>	_____	_____	_____
<b>Water Clarifying Chemicals:</b>	_____	_____	_____
<b>Other(s):</b>	_____	_____	_____
	_____	_____	_____
